CHALLENGE MONDIAL AERONAUTIQUE et SPATIAL

An addition to the regulation of the silk route run 2007

World cup fight of the air and space travel industry

Article 1

The world cup fight of the air and space travel industry is an arrangement of the SDP organisation. It was created on first October 2005 and forms the first classification of the French and international runners, which work in air and space travel.

Article 2

Conditions of participation:

This match is certified for:

- People, who work in air and space travel (production, repair or maintenance)
- People, who use the material/equipment from air and space travel, as well as airlines
- People, who use materials from air and space travel as working material
- People from supplier of the aviation
- Services, which work in air and space travel
- Personal civilian or military who use materials from air and space travel, pilots, mechanics, engineers at aircrafts or helicopters

Article 3

Compilation of a group

Each group consists of 5 runners, from which at least 4 must originate from the aviation (see article 2). Each group can consist of runners of one air and a space travel company, supplemented by runners of suppliers or services for that society, or in reverse (women such as men). Each group can consist also of senior and veteran runners. The classification of the groups is not affected by the category of the runners.

Article 4

Conditions of participation

Each group must carry the names of the company, the aviation structure, the supplier or the service company. In addition the name and the colours of the company must be imprinted on the runners tricot.

And the official Logo must be noticeable to see "Foulées de la Soie" on the tricots.

Article 5

In order to inscript, the group has to fill out the application form and deliver it to the S.D.P.O. with 270. – Euros attached, which are used for the installation of the dossier and as pre-payment, according to the defined rules.

The total inscription price of the group with five runners is 18800. - Euros. This sum contains the 310. - Euros for the mandatory return transportation insurance. For all cheque payments and transfers outside from France an extra charge of 80. – Euros have to be payed.

The price contains the registration costs, and return flight ticket from Paris, the transport costs on Chinese ground, the accomodating costs in a double room and full board an lodging in China as is customary in the country and the admission fees for objects of interest.

For groups, which are traveling directly to China, the total registration price for five runners is 15375. - Euro including the 310. - Euro return transportation insurance.

For the accommodation in a single room 442. - Euro more are charged.

"La Maison de la Chine ", partner of the FDS 2007 worries about group visas.

The costs of it (35. - Euros per runner) have to be paied from each participant (175. - Euro for the official groups).

Article 6

Profits

The first group will be invited to participate at the Marathon of Peking (one week full board and lodging, takeoff from Paris, launch number costs included, only insurance and visa costs have to be paid from the group).

The second group receives a 50% reduction for the same Marathon to the same conditions.

The third group receives a 25% reduction for the same Marathon to the same conditions.

Article 7

This world cup fight of air and space travel indutry is organised only if at least 7 groups are officially booked.
